### SECTION 2 — COMPOSITION/INFORMATION ON INGREDIENTS

| Hazardous Ingredient(s)    | %   | CAS Number | LD50 of Ingredient ( <i>species and route</i> ) | LC50 of Ingredient ( <i>species</i> ) |
|----------------------------|-----|------------|-------------------------------------------------|---------------------------------------|
| Polymyxin B sulfite (salt) | < 1 | 1405-20-5  | 790 mg/kg; Mouse (Oral)                         | No data available                     |
| Vancomycin HCl             | < 1 | 1404-93-9  | 10,000 mg/kg; Rat (Oral)                        | No data available                     |

### SECTION 3 — HAZARDS IDENTIFICATION

|                                                                                                                                                                                                          |                                                  |                                          |                                                 |                                     |                                               |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------|------------------------------------------|-------------------------------------------------|-------------------------------------|-----------------------------------------------|
| Route of Entry                                                                                                                                                                                           | <input checked="" type="checkbox"/> Skin Contact | <input type="checkbox"/> Skin Absorption | <input checked="" type="checkbox"/> Eye Contact | <input type="checkbox"/> Inhalation | <input checked="" type="checkbox"/> Ingestion |
| <u>Emergency Overview</u><br>Except for distilled water, hazardous ingredient(s) are in concentrations of less than 1%. All carcinogenic/teratogenic components are in concentrations of less than 0.1%. |                                                  |                                          |                                                 |                                     |                                               |
| Pictogram<br>                                                                                                         |                                                  |                                          |                                                 |                                     |                                               |
| Signal Word(s): WARNING                                                                                                                                                                                  |                                                  |                                          |                                                 |                                     |                                               |
| <u>Potential Health Effects</u><br>Persons known to be allergic to antibiotics should take extra precaution to avoid exposure. See Section 11: Toxicological Information for details.                    |                                                  |                                          |                                                 |                                     |                                               |

**SECTION 4 — FIRST AID MEASURES**

|                                                                                                                                                  |
|--------------------------------------------------------------------------------------------------------------------------------------------------|
| <u>Skin Contact</u><br>Immediately and thoroughly clean area of exposure with soap and water. Call a physician if irritation occurs or persists. |
| <u>Eye Contact</u><br>Flush thoroughly with water for 15 minutes, call a physician if irritation persists.                                       |
| <u>Inhalation</u><br>N/A                                                                                                                         |
| <u>Ingestion</u><br>Call a physician                                                                                                             |

**SECTION 5 — FIRE FIGHTING MEASURES**

|                                                                                                                                                              |                                                      |                                                                |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------|----------------------------------------------------------------|
| Flammable<br><input type="checkbox"/> Yes <input checked="" type="checkbox"/> No                                                                             | If yes, under which conditions?<br>N/A               |                                                                |
| <u>Means of Extinction</u><br>CO <sub>2</sub> , ABC multipurpose dry chemical or water spray. Fight larger fires with water spray or alcohol resistant foam. |                                                      |                                                                |
| <u>Flashpoint (° C) and Method</u><br>NA                                                                                                                     | <u>Upper Flammable Limit (% by volume)</u><br>N/A    | <u>Lower Flammable Limit (% by volume)</u><br>N/A              |
| <u>Auto-ignition Temperature (°C)</u><br>N/A                                                                                                                 | <u>Explosion Data — Sensitivity to Impact</u><br>N/A | <u>Explosion Data — Sensitivity to Static Discharge</u><br>N/A |
| <u>Hazardous Combustion Products</u><br>N/A                                                                                                                  |                                                      |                                                                |
| <u>NFPA</u><br>N/A                                                                                                                                           |                                                      |                                                                |

**SECTION 6 — ACCIDENTAL RELEASE MEASURES**

|                                                                                                                                   |
|-----------------------------------------------------------------------------------------------------------------------------------|
| <u>Leak and Spill Procedures</u><br>Collect spilled solid material with paper towels and dispose of with normal laboratory trash. |
|-----------------------------------------------------------------------------------------------------------------------------------|

**SECTION 7 — HANDLING AND STORAGE**

|                                                                                                                                                                        |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <u>Handling Procedures and Equipment</u><br>Handle in accordance with good industrial hygiene and safety practice. Wash hands before breaks and at the end of workday. |
| Eyes: Eye protection (safety glasses or goggles) are recommended while using this product.                                                                             |
| <u>Storage Requirements</u><br>Store in the dark between 2°C and 8°C. Do not allow product to be subjected to prolonged sunlight exposure.                             |

**SECTION 8 — EXPOSURE CONTROL / PERSONAL PROTECTION**

|                                                                                                                                                                                                                                                                                                         |

**SECTION 12 — ECOLOGICAL INFORMATION**

|                                                              |
|--------------------------------------------------------------|
| <u>Aquatic / Environmental Toxicity</u><br>No data available |
|--------------------------------------------------------------|

**SECTION 13 — DISPOSAL CONSIDERATIONS**

Waste Disposal

Dispose of with normal lab trash. Obey all Federal, State and local regulations.

**SECTION 14 — TRANSPORT INFORMATION**

Special Shipping Information

Each shipment is equipped with frozen packs to promote cool-storage conditions

*This space intentionally left blank*
